SNAPSHOTS OF SIMULATION:**IMAGES OF IBM CLOUD:**

NAME: JAYASRI.M

REG. NO: 211419106114

The screenshot displays the IBM Watson IoT Platform dashboard. The top navigation bar includes tabs for 'Browse', 'Action', 'Device Types', and 'Interfaces'. The main content area shows the details for a device named 'Jayasri', which is in a 'Connected' state. The 'Recent Events' tab is selected, showing a table of events. The table has four columns: 'Event', 'Value', 'Format', and 'Last Received'. The events listed are: 'JAYASRI.M' with value '(*ALERT*:33)', 'JAYASRI.M' with value '(*ALERT*:78)', 'JAYASRI.M' with value '(*distance*:167)', 'JAYASRI.M' with value '(*distance*:180)', and 'JAYASRI.M' with value '(*distance*:187)'. All events are in 'json' format and were received 'a few seconds ago'. The bottom of the dashboard shows a search bar, system status (29°C Cloudy), and the date/time (13:34 03-11-2022).

Event	Value	Format	Last Received
JAYASRI.M	(*ALERT*:33)	json	a few seconds ago
JAYASRI.M	(*ALERT*:78)	json	a few seconds ago
JAYASRI.M	(*distance*:167)	json	a few seconds ago
JAYASRI.M	(*distance*:180)	json	a few seconds ago
JAYASRI.M	(*distance*:187)	json	a few seconds ago

This is a duplicate of the screenshot above, showing the same IBM Watson IoT Platform dashboard with the 'Recent Events' tab selected for the 'Jayasri' device. The table of events and the overall interface are identical to the first screenshot.

Event	Value	Format	Last Received
JAYASRI.M	(*ALERT*:33)	json	a few seconds ago
JAYASRI.M	(*ALERT*:78)	json	a few seconds ago
JAYASRI.M	(*distance*:167)	json	a few seconds ago
JAYASRI.M	(*distance*:180)	json	a few seconds ago
JAYASRI.M	(*distance*:187)	json	a few seconds ago
